- Discover inventive and creative learning. Take apart toys enhances imagination and motor skills. Most toys in the market are already premade, unlike take apart toys that teach children how to explore, rebuild, and repair the parts inside a toy.
- Strong, durable parts lets your child build again and again. This toy lets kids learn how things work, and experiment with many different ways to build and construct the dinosaurs. With strong, durable parts, kids can create and express themselves by taking apart and building.
- Includes tool kit for build and play. This toy set comes with dinosaur figures and tools perfect for small hands to assemble so your young engineers can get right to work constructing the pieces together.
- Playful and creative. With sturdy pieces that are easy to handle, kids will be able to figure out how their toys work, and be engrossed in deconstructing and assembling their own toys. Recommended for ages 3 and above.
- For long term use. Agreatlife only offers high quality toys made from the best and safest materials for you and your family. Should anything go amiss, contact our friendly customer service team and we will be happy to send you a replacement.

Motor Skills Meet Imagination

Let your little one learn how to build their own toys with this take-a-part dinosaur toy set. This play set comes with its own set of tools for hours of engineering, invention, and discovery! Now your child can get straight to work and create their own toys with the tools designed for young engineers' little hands. They'll develop an interest in mechanics while taking apart and assembling their toys.

Sturdy Parts With Complete Tool Set For Engineering Fun

Give this toy set to your child and watch as he builds his own toys! Take apart toys are a great way to cultivate curiosity and develop fine motor skills. This toy set comes with three easy-to-use screwdrivers designed for little hands to grasp. Unlike pre-made toys, this build-and-play dinosaur set gives your child an opportunity to learn how their toys work, leading to hours of exploration and discovery.

This toy provides a great build-and-play experience. Buy now and give your child a great imaginative play experience!

I was worried he was too young for the tools but he can handle them easily, and with direction from us

By karen on August 10, 2017

Verified Purchase

I ordered this for my 2 1/2 year old grandson. He LOVES his Dinosaurs!!! And the tools as well. I was worried he was too young for the tools but he can handle them easily, and with direction from us, can use the tools himself. I highly recommend for any toddler or older who loves dinosaurs, and loves taking things apart and building !!

Perfect for the little builder

By [Lisa Jennifer Levine](#) on August 11, 2017

Verified Purchase

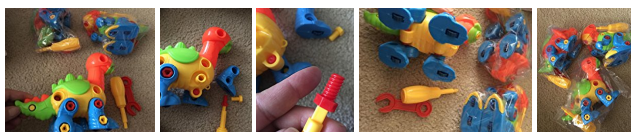

Perfect for the little builder, my 3 year old loves these!! He loves to take his toys apart and these are perfect for he can take them apart and build them over and over again. The screws are a good size so he can easily turn them and hold them! Helps him build his dexterity and fine motor skills while having a blast!

Great toy for a tinkerer

By [Ele](#) on May 22, 2017

My little boy is excellent at tinkering therefore this is the perfect little toys for him and its a plus because he is really in to dinosaurs right now! Each dinosaur comes with its own wrench and screwdriver (so 3 sets one for each dino) its amazing how you can pretty much take the whole dinosaur apart. The screws unscrew easily with effort the screws are about an inch in height. The pieces are not too small. I love the bright colors. The dinos have wheels at the foot my son likes to roll them around. Very fun toys.

Perfect for both boys and girls

By [Veronica Mars](#) on June 15, 2017

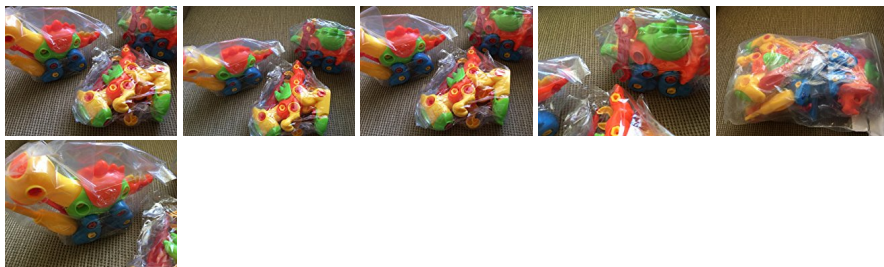

Being an engineer and a female, I love looking for activities that are hands on. I want both of my girls to know about cars, hammers, screw drivers, etc. These are not just for boys. Plus, they allow my daughter to learn basic skills: righty tighty and lefty loosey. My daughter loves that the tools were easy to hold and plastic. My youngest daughter loves the screw driver, she thinks it is a teething toy and has held up without any issues for both using it as a screw driver and teething accessory. :) The third dinosaur we ended up giving to a friend. Their son had so much fun also. Definitely a great product for both boys and girls. Will include pictures after I can pry them from my girls hands. :)

This toys are so cute and kids love them so much!

By [Ani](#) on June 4, 2017

These dinosaur toys are colorful and well made. The size is perfect. They are big enough for little hands to pick up easily and hold onto. They are so much fun, This is a fun toy because they can learn how to put stuff together. You need to watch your kids while playing this toy because the screws are choking hazard. So far this toys are great and my kids love it, opportunity to learn how things work, and experiment with many different ways to build and construct the dinosaur toys. So i will recommend this to you. Perfect for gifts to your kids and or love ones.
